

International Student Insurance

Do I need insurance?

Insurance is required for all students. Students must either purchase insurance through Stafford House or provide proof of their own insurance coverage that is effective in the United States. Students may not attend class until they show proof of insurance. Students must purchase insurance before class starts on Tuesday. Insurance must cover the entire duration of your program.

Many things can happen while you are studying abroad and medical care is very expensive in the United States. We want to ensure you are prepared in case of an emergency.

What do I get with International Student Insurance?

International Student Insurance will cover the following:

- Medical Care so you can go see a doctor if you get sick or injured
- Medical Emergencies
- Emergency Dental Care if you have pain in your teeth
- All of the above if you are visiting another country during your time at Stafford House (excluding your native home country)

How much is International Student Insurance?

Stafford House offers Insurance for \$25/week.

What if I don't want to buy Insurance?

Insurance is not an optional service. ALL students must have insurance coverage for the full duration of their Stafford House program.
