I’m excited to present our summer courses for individuals for 2024. After a hugely successful programme in 2023, we return with an expanded course offering to further develop our global cohort of students this coming summer. I’m delighted that we are able to now offer a tailored younger learners version of our popular Stafford House ‘Professional Certificate’ programme this summer in Boston, where we have also expanded our summer CSVPA Arts programme to include Film-Making and Photography, with a United States twist. We have also added 2 new programmes to the Guildhouse roster in Bloomsbury, adding a London-themed STEM and English Course and a CSVPA ‘Branding and Advertising’ course at the intersection between Arts and Enterprise. CSVPA summer school in Cambridge features a new Music Production course, a Fashion Makeup course and additional start dates for our most popular programmes.

I’m also excited to introduce our new centre at Bosworth Independent School, making use of their fantastic science labs to deliver a STEM summer programme. We are also offering an IELTS exam preparation course, aimed at helping our ambitious young learners perform to their maximum potential in this demanding exam that is universally recognised as the “gold standard” english level test for entering Higher Education.

All of our students become part of the CSVPA family, a vibrant, multicultural community of highly creative people who share common dreams and ambitions. On our CSVPA summer courses, you will make friends, sharing ideas and experiences that elevate your work and inspire you to explore your own creativity.

All of our studios are designed to look, feel and operate like those you would work in during a professional career. We make

sure you are adept at using all the latest equipment, processes and programmes that the creative industries use. Students have access to our studio spaces and our lecturers provide personalised tuition.

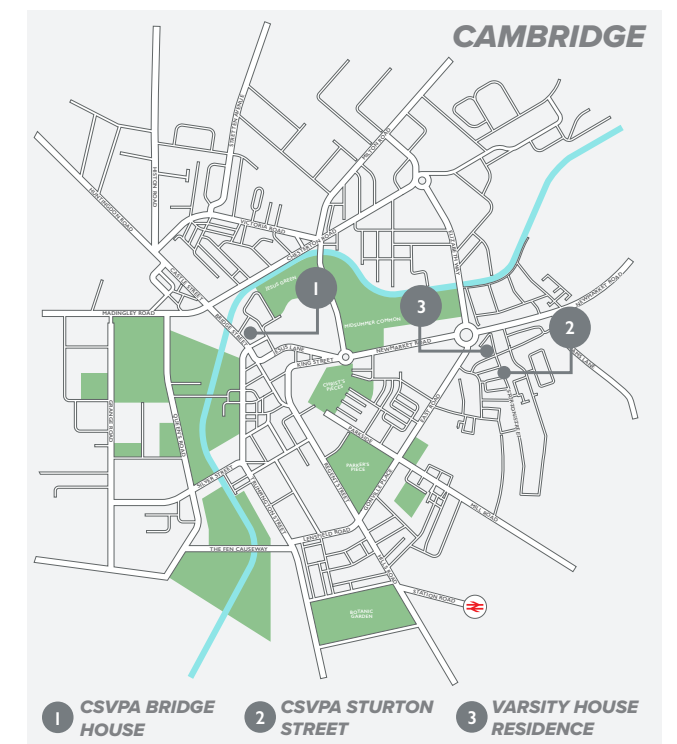

A beautiful, multicultural city, Cambridge is rich with English history and lots to do. There is a popular music scene with multiple venues to choose from across different genres. Arts and culture can also be enjoyed with world famous museums

that show some of the rarest collections, sculptures, art and ancient antiques dating back to even the pre-historic era. There are many art galleries that are filled with contemporary and renaissance artworks and plenty of theatres which host performances, from Broadway shows to amateur theatre groups.

Cambridge is one of the safest places to live in Britain. There is an abundance of shopping

centres, restaurants, cafés and cinemas, and during our courses, when you explore the rest of the UK, you can easily jump on a train and be in London in just under an hour.

Cambridge is easy to get around on foot, by bike or using public transport. Our Varsity House student residence is a 20 walk from our Bridge House centre in Round Church Street and 12 minutes by public transport.
