# SUMMER COURSES FOR INDIVIDUALS

CAMBRIDGE  
SCHOOL OF  
VISUAL  
PERFORMING  
ARTS

**“We offer a wide range of interactive and engaging courses for individual students”**

I'm delighted to present the prospectus for our 2023 summer courses, featuring the fantastic range of programmes that CATS Global Schools provides. It was wonderful to experience the demand for our courses after two years where students were denied the opportunity to travel. It was inspiring to see so many students, from so many different countries, enjoying learning at our schools again during the summer - taking great steps forward in their science or business knowledge, their practical arts skills, their football skills, or their academic skills in English. What was most evident about the experience in summer 2022 was how much our students learned about themselves and each other during their stays. We can't wait to welcome a new cohort to summer 2023!

### DEVELOP YOUR SKILLS IN:

In this introductory course, students will develop skills across all phases of the comic book creation process. From writing to coloring, students will explore and experiment with the tools, formats, and mediums used by professionals.

### SCRIPTWRITING

In the business of comics, it is often the case where one person writes the story and another draws the comic. Students will learn how to put their vision into words and write a detailed, professionally formatted script.
