

# ENTREPRENEURSHIP PROFESSIONAL CERTIFICATE

Take your business dreams global! This immersive entrepreneurship programme is designed for aspiring entrepreneurs and professionals who want to boost their business knowledge – and their English – through real-world learning. Join us and gain the skills, confidence, and global network you need to launch your next big idea.

## OVERVIEW

This hands-on course covers the essential entrepreneurship tools to build the mindset needed to launch and grow a new business. Through a mix of workshops, case studies, roleplay, and simulations, students will explore how to identify business opportunities, develop financial plans, build business models, create marketing strategies and more.

The course is made up of two key modules: 'Entrepreneurship I: Ideas to Validation' and 'Entrepreneurship II: Planning, Funding, Growth'. These modules can be studied as individual two-week programmes or as a single four-week programme.

Students will learn through theoretical and practical engagement with the subject matter. This will come in many forms, such as participating in interactive workshops, analysing real-world case studies, visiting a real company and hearing from a guest speaker, experienced in entrepreneurship or investing.

## OUTCOMES

- A Professional Certificate in Entrepreneurship\*
- A complete team startup pitch project
- Practice working in diverse, cross-cultural teams
- Real-world experience with modern startup tools and frameworks
- Improved confidence using professional English in business settings
