

NIGHT SCHOOL

General English / IELTS (General & Academic)

The Night School ESL Course is designed to help students develop all the core language skills: Speaking, Reading, Writing, and Listening.

This integrated program provides learners with abundant opportunities for communicative and meaningful language learning. Not only will students have an opportunity to improve their skills in listening, speaking, reading, and writing, but also learn, practice, and review English grammar, pronunciation, word forms, and vocabulary.

Night School will focus more on interactive activities in class rather than quiet activities such as reading in order to take advantage of teacher time in class. Most of the reading activities as well as extra grammar and vocabulary practice activities will be done as homework.

NIGHT SCHOOL

The primary goal of the course is to cover all language skills and vocabulary as well as to teach communicative competence (the ability to communicate in English according to situation, express opinions, respectfully recognize the importance of different opinions, and develop skills in supporting someone's ideas). We at Stafford House use the communicative approach where teachers are only facilitators with both direct and indirect influence. Meaningful learning is one of our basic principles. Stafford House's teachers are trying to enhance the learning process by appealing to students' interests, academic goals and career goals.
